

Treaty of Arxegol

Article 1 - Parties

This Treaty is entered into by the states of :

- A. The Grand Republic of Exegol (Henceforth referred to as Exegol)
- B. The Technocratic State of Arx (Henceforth referred to as Arx)

Article 2 - Purpose

The states of Exegol and Arx intend to cooperate as a unified region (referred to as Arxegol) dedicated to:

- A. Combining priority infrastructure projects
- B. Combining EXP/XP and farm supply chain projects
- C. Conducting joint diplomacy, including ME engagement
- D. Coordinating collective defence
- E. Building a deeper union between both nations

Article 3 - Phases and Timeline

[3.1] Treaty Phase

- A. Effective immediately upon signing:
- B. Each nation remains sovereign over their internal governance
- C. Joint matters are managed through forming of Joint Council (Article 4)
- D. Funding occurs through use of the Joint Project Fund system (Article 6)

[3.2] Review Checkpoint

A formal review occurs **30 days** after signing to assess:

- A. Governance Effectiveness
- B. Project Progress
- C. Financial Trust and Transparency
- D. Community Sentiment

At this checkpoint, Arx and Exegol may:

- A. Continue Treaty Phase unchanged
- B. Amend Treaty Phase terms
- C. Begin drafting of an interim constitution
- D. Pause or dissolve the Treaty (Article 12)

[3.3] ME Membership Timing

Both nations may pursue ME full membership together as “Arxegol” during the Treaty phase only with Joint Council approval after the Review Checkpoint (Article 9).

Article 4 - Joint Council (JC)

[4.1] Consensus Structure

The Government of Arx and Exegol agree to work together on the later articles. To accomplish this, Exegol and Arx each receive one vote on all Collective Actions governed by this Treaty.

Each nation may allocate and cast its vote internally through whatever internal process. This Treaty doesn't prescribe how a nation reaches its internal decision.

For any Collective Action to occur, both votes must match. If the votes do not match, the Collective Action does not proceed and the default outcome is status quo.

[4.2] Deadlock / Reproposal

If a Collective Action fails due to non-matching votes, either nation may:

- A. Request amendments and re-submit the proposal, or
- B. Withdraw the proposal without prejudice

[4.3] Advisors

Non-Voting advisors may be invited to JC discussions (e.g. military lead, judiciary), but they cannot vote. However this invitation can be revoked if agreed upon by the JC.

Article 5 - Scope

[5.1] Collective Actions

The following are the “Collective Actions” governed by the JC:

- A. Joint Infrastructure Projects (roads/ice roads/rails shared between nations)
- B. EXP/XP production chain, shared farms, and related automation.
- C. Joint diplomacy statements and alliance applications
- D. Collective military coordination and joint defensive infrastructure.
- E. Any activity funded by the Joint Project Fund

[5.2] Classification Rule

Additional matters can be added to Article 5.1 if it's proposed and accepted under the consensus structure established in Article 4.1.

If there is uncertainty on whether something is Collective or Internal it should be treated as Internal by default, unless explicitly agreed as a Collective Action by both nations.

Article 6 - Joint Project Fund System

[6.1] Definition

Arxegol will use a project-by-project funding model, not a fully merged treasury during the Treaty Phase.

Any Collective Actions that require funding will become a Joint Project with the following:

- A. Budget target
- B. Spending approval
- C. Ledger record
- D. Contributors

[6.2] Approvals

A Joint Project must be approved by JC consensus and record with it's:

- A. Project Name
- B. Purpose
- C. Budget Target
- D. Contribution Plan
- E. Expected Output

[6.3] Spending Controls

- A. Spending below **500 Diamonds** requires approval from 1 Arx Rep + 1 Exegol Rep
- B. Spending above **500 Diamonds** requires approval from a JC consensus vote

[6.4] Ledger & Transparency

A ledger must be maintained that shows:

- A. Deposits (with Who, What, When)
- B. Spending (what, why, approver)
- C. Current Balance per Project

Any Ledger updates should be recorded and updated within a Week.

Article 7 - EXP/XP Output & Profit Handling

[7.1] Ownership

EXP/XP farms and output designated as Joint Projects are collectively owned during the Treaty Phase.

Any Output is State-First:

- A. All output goes into a designated Arxegol Project Storage
- B. Distribution/Sales occur via agreed policy below

[7.2] Distribution Policy

For each Joint Project that produces a saleable output the following distribution order should occur:

1. Maintenance Reserve: First, ensure maintenance of minimum stock levels to keep any systems operating
2. Payback of Contributions: If a project requires Capital contributions, contributors should be repaid pro-rata until initial contributions are recovered. (Recorded in the Ledger)
3. Surplus Split: After payback, surplus is split:
 - A. 50% reinvested into approved Joint Projects (by JC vote)
 - B. 50% split evenly (25% Arx / 25% Exegol) into each nation's treasury or held as "Arxegol Reserve" if desired by a nation.

[7.3] Exception Coverage

The JC may allocate a proportion of output towards any agreed upon Good/Service by vote.
E.G. Citizen Services, Subsidies, etc

Article 8 - Military

[8.1] Joint Defense

Arx and Exegol commit to mutual defence and coordinated response, including formation of shared military, the creation and funding of a shared vault, and other systems such as Iceroads to ensure the security of both nations.

[8.2] Combined Military Structure

The Arxegol military shall have a tiered structure as follows (in decreasing order of power):

- A. Arxegol Commander
- B. Knight
- C. Militia

[8.3] Appointing Military Members

Paladins and Commanders are appointed by the consensus of the council and input of the commanders of Arxegol. All members of Arx and Exegols' military will retain their rank within the Arxegol military.

[8.4] Emergency Defensive Action

During an active threat (raid/attack), designated military leaders may take immediate defensive actions to protect citizens and critical infrastructure of both nations without direct approval of JC. However, actions taken should be reported and reviewed by JC within 24 hours.

[8.5] Military Appointments

Joint Military roles may be appointed by JC consensus.

Article 9 - Diplomacy & ME

External diplomacy as “Arxegol” requires JC consensus.

ME full membership application may proceed only after Review Checkpoint unless both nations agree otherwise.

Article 10 - Communications

- A. A shared Arxegol Discord (or shared category) may be created during Treaty Phase
- B. Clear Separation must exist between “Joint” and “Internal” channels.
- C. JC decisions must be recorded in pinned “Decision Log”

Article 11 - Amendments

This treaty may be amended only by JC consensus.

Article 12 - Exit Clause

Either nation may withdraw with 7 days notice unless both sides agree otherwise:

Upon withdrawal:

- Joint Projects cease or are handed off as agreed
- Remaining project assets are distributed through the ledger record:
 - Unused contributions returned pro-rata where possible
 - Shared infrastructure control reverts to original nations ownership unless agreed otherwise.

A joint statement is issued to both nations to prevent escalation.
